
300wh power station in China in Doha

Does Doosan Enerbility have a gas power plant project in Qatar?

Doosan Enerbility has secured a gas power plant project worth 290 billion won in Qatar.

Doosan Enerbility noted that on the 20th of last month (local time), it signed a contract for the design, procurement, and construction (EPC) of a peaking unit gas power plant with Qatar Electricity and Water Company (QEWCo) worth 290 billion won on the 5th.

Where is a power plant located in Qatar?

This contract is for a power plant located in the Ras Abu Fontas area, about 18 kilometers southeast of Doha, the capital of Qatar, led by Doosan Enerbility (55%) in a consortium with the Chinese state-owned company Shandong Electric Power Construction No. 3 Engineering Company (SEPCO-3, 45%).

Is Doosan Enerbility clinching a contract for a gas-fired power plant?

Doosan Enerbility Co. has clinched an engineering, procurement and construction (EPC) contract for a gas-fired power plant from Qatar in a consortium that includes Power Construction Corporation of China (PowerChina), according to foreign media reports.

When will a peak-load power plant be operational in Qatar?

It is scheduled for completion and expected to be operational by January 2027. Peak-load power plants enhance grid stability and reliability by meeting surging electricity demand during peak periods. The latest EPC order aligns with Qatar National Vision 2030 to transition towards a more efficient energy mix.
