# 40W Solar Street Light in Johannesburg South Africa

What is a 40W LED street light?

A 40W LED street light with higher lumens with lower energy consumption. Excellent as an area light, parking lot light, patio light or yard light. The High efficiency poly solar panels convert solar energy into electricity and charge the battery and supply energy to the light during night.

Do solar street lights work in South Africa?

Ideal for improving safety and visibility, solar street lights South Africa homeowners and municipalities rely on operate automatically, switching on at dusk and off at dawn for hassle-free operation. Pair them with solar wall lights to enhance perimeter security, or combine with LED floodlights to highlight larger areas or entrances.

What are universal solar street lights (high power)?

Our Universal Solar Street Lights (High Power) have many advantages over the traditional cheaper imported solar lights. Brighter LED Chips: Philips, Cree or Litup LED chips provide 130-151 lumens of light per watt with LM80 LED packages (high end components).

How do you use solar street lights?

Pair them with solar wall lights to enhance perimeter security, or combine with LED floodlights to highlight larger areas or entrances. Shop solar street lights for roads, estates & farms.
