## 48v base station power module

What is a 48V data center module?

With a focus on solution size, efficiency, and performance, MPS's 48V modules provide a quick and effortless transition from traditional 12V data center systems to high-performance systems. No more parts left for display.

What is a 48V 100Ah battery module?

48V 100Ah 4.8kWh base station battery module. Capable of Parallel connection of up to 16 Modules

Can bp48100 battery be cascaded?

The BP48100 battery can be cascaded based on actual demand to provide unified backup power for the site to ensure undisrupted operation for longer duration. Additionally, you can achieve unified management and easy maintenance through the network management remote monitoring system.

The 48V 100Ah LiFePO4 Battery Pack Module is a powerful and reliable energy storage solution designed for a variety of applications, including: ...
