
5G base station communication construction project

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

5G Base Station Construction Market in China Driver and Challenges The development is propelled by government support, technological innovation, and increasing ...

Introduction The construction of 5G base stations represents a pivotal step in the evolution of telecommunications infrastructure, ushering in a new era of connectivity and innovation. This ...

Quality Assurance for Engineering Projects Domestic 5G base station projects must strictly comply with the "5G Mobile Communication Network Engineering Construction and ...

The 5G Base Station Construction Market Size was valued at 17.23 USD Billion in 2024. The 5G Base Station Construction Market is expected to grow from 20.57 USD Billion in 2025 to 120.5 ...
