
600kW Folding Container for Drilling Sites

What is a fold container house?

The fold container house is a modular building constructed from prefabricated modular containers specially designed to fold and unfold. This unique feature allows for easy transportation and rapid assembly, making them ideal for a wide range of temporary or moveable housing needs. Generally speaking, 3 workers can install at least 100 sets in 5 days.

Are fold container houses eco-friendly?

Sustainability: Reusing prefabricated fold containers for housing reduces waste and the need for traditional building materials, making fold container houses an eco-friendly option. **Flexibility and Modularity:** Fold container houses can be easily modified and expanded to meet changing needs.

What are the benefits of a fold container house?

Cost-Effective: One of the most significant benefits of fold container houses is their affordability. The use of prefabricated containers reduces the cost of raw materials, and the quick assembly process minimizes labor costs, making these homes a cost-effective solution.

Drilling Camps should include meeting room, worker camp and public toilet, if it has a terrace will be better. Our engineer team take ...
