
Are there solar air conditioners for sale in Brazil

How much is the Brazil air conditioner (AC) market worth?

According to the research report "Brazil Air Conditioner (AC) Market Overview, 2028," published by Bonafide Research, the Brazil Air Conditioner (AC) market was valued more than USD 8 Billion in 2022. Solar-powered air conditioning systems are becoming more popular in areas with plenty of sunlight.

Which air conditioner will grow fastest in Brazil?

Among them portable ACs are predicted to grow at the fastest rate in the Brazil Air conditioner market. Portable air conditioners are frequently less expensive than split-system or central air conditioning devices. Affordability is important in consumer decisions in a market where a large section of the population is price-sensitive.

Why are air conditioners so popular in Brazil?

In Brazil, air conditioners are significant contributors to residential electricity consumption. The increasing frequency of heat waves has led to a rise in air conditioner sales, which, in turn, has caused a long-term increase in household energy usage.

Why should you buy a portable air conditioner in Brazil?

Brazil has a major tourist economy, and many visitors prefer lodgings with air conditioning. Portable air conditioners can be used in short-term rental homes, such as Airbnb listings, to give climate comfort to guests without requiring extensive installation. Based on end-user industry, it is divided into residential, commercial, and industrial.
