# **BESS solar energy storage project bidding**

What does Bess stand for?

The tender for the design,manufacture,installation and 20-year operations &maintenance (O&M) of battery energy storage systems(BESS) for Power China's 2025-2026 projects was announced on 13 November,and the results were released last week.

What is a Bess tender?

The tender aims to ensure the energy storage facility is available to the buying entities for charging and discharging on an "on-demand" basis. Projects selected under this tender will be eligible for VGF. Currently, funding has been allocated to BESS projects with a capacity of 500 MWh for Kerala.

How much does Bess cost?

BloombergNEF recently noted a global average price for BESS (without PCS or EMS) of US\$125 per kWh,for example. Kubik suggested the tender's requirements implied it covered an AC block solution. Energy-Storage.news looked at the move towards PCS-integrated AC blocks in a recent article (Premium access).
