# **Bosnia and Herzegovina high temperature solar energy system manufacturer**

Who is building a 125 MW solar plant in Bosnia & Herzegovina?

Bosnia and Herzegovina has started working on a 125 MW solar plant - its largest to date.

China's Norinco International will build the facility, with completion expected in one year. The European Commission has published a call for private companies to invest in the Western Balkans.

Which sector produces res energy in Bosnia and Herzegovina?

Production of RES energy in Bosnia and Herzegovina is dominated by the heating and cooling sector, for which an increase from the baseline 867.2 ktoe to 1085.2 ktoe in 2020 was planned. In addition, the share of electric energy sector in production of RES energy in the planned period increases from the baseline 444.2 ktoe to 760.6 ktoe in 2020.

How much solar energy does Bosnia have?

The average intensity of solar radiation in Bosnia is approximately 1,500 kWh/m<sup>2</sup> annually. The national average for kWh per kWp installed in Bosnia annually typically ranges from 1,400 to 1,600 kWh/kWp.<sup>3</sup> According to the data from December 2023, the average price of electricity for households in Bosnia and Herzegovina is \$0.096 per kWh.

How much does electricity cost in Bosnia and Herzegovina?

According to the data from December 2023, the average price of electricity for households in Bosnia and Herzegovina is \$0.096 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes. For businesses, the average electricity price in Bosnia and Herzegovina is \$0.109 per kWh.<sup>4</sup>

Comprehensive Bosnia & Herzegovina solar report covering PV potential, electricity costs, major projects, and investment opportunities for 2025.

Company profile for solar component seller and installer eSolar d.o.o. - showing the company's contact details and offerings.

Sunny plateaus in Herzegovina and parts of central Bosnia Southern and western parts of the country present strong solar yield, making them ideal for both residential and utility-scale ...

Bosnia and Herzegovina, situated in Southeastern Europe, receives an average annual solar radiation of approximately 1,500 kWh/m<sup>2</sup>, offering substantial potential for the ...

Bosnia and Herzegovina Solar Market Outlook in Bosnia and Herzegovina Bosnia and Herzegovina's energy sector has endured significant loss due to the low energy efficiency ...

SH Energy d.o.o. Nevesinje specializes in solar energy production, providing sustainable and innovative solutions for clean electricity. Our advanced technology harnesses ...
