
British new solar container battery

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE)

How many MW of solar & battery storage are there in the UK?

Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage. German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

Which UK battery energy storage systems have won government approval?

Three new UK battery energy storage systems (BESS) and a 150 MW capacity solar farm have won government approval. The Scottish government has given Kona Energy the green light for the construction and operation of the Smeaton battery energy storage system (BESS), a 228 MW/456 MWh project near Dalkeith, East Lothian.

Why are UK businesses turning to solar power paired with battery storage?

As energy prices fluctuate and sustainability becomes a top priority, more and more UK businesses are turning to solar power paired with battery storage to cut costs, reduce carbon emissions, and gain greater energy independence.

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, ...

Explore British Solar Renewables' battery storage projects. We help drive energy security and the UK's clean energy future.

Compare the top commercial battery storage systems in the UK for 2025. Find the best solution to ...

As intermittent renewable energy continues to grow, the grid needs support. RWE is set to build a 700 MWh capacity battery energy ...

RWE has announced plans to construct a battery energy storage facility in Wales with a capacity of 700 MWh, made of 212 lithium-ion battery containers. When complete, the ...

Three new UK battery energy storage systems (BESS) and a 150 MW capacity solar farm have won government approval.

Compare the top commercial battery storage systems in the UK for 2025. Find the best solution to maximise your solar savings and energy resilience.

Construction has commenced on a massive battery energy storage system (BESS) project at Cellarhead in the West Midlands, with 54 BESS containers installed in only 38 days.

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co ...

British Solar Renewables boosts its green portfolio with a 150-MWp solar and battery project, driving the UK's shift to sustainable energy.

As intermittent renewable energy continues to grow, the grid needs support. RWE is set to build a 700 MWh capacity battery energy storage facility in Wales with 212 lithium-ion ...

Innova Alhhome Energy Hub is set to become one of the UK's largest battery energy storage system projects, featuring a total capacity of 1,025 MW / 2,050 MWh. The ...
