# Bulgaria Commercial Wind Power System

What is the current state of wind energy in Bulgaria?

The Current State of Wind Energy in Bulgaria: By the end of 2023, Bulgaria's installed wind capacity reached 705 MW, accounting for 3.9% of the nation's annual gross electricity generation. Wind farms in Bulgaria generated 1,584 GWh in 2023, marking a 5.9% year-on-year increase.

How much wind power does Bulgaria have in 2024?

At the end of 2024, Bulgaria's cumulative installed wind power capacity reached 714 MW (0.71 GW), which represents 15.1 % of the total installed renewable energy capacity in the country. The report provides a complete picture of the market situation, dynamics, current issues and future prospects.

Is Bulgaria paving the way for a resurgence in wind energy investment?

Bulgaria is paving the way for a resurgence in wind energy investment after years of stagnation, as detailed in a new study produced by business intelligence provider SeeNext, in collaboration with Gugushev & Partners Law Office.

How many wind turbines does Bulgaria have?

As of 2009 Bulgaria operates more than 70 wind turbines with a total capacity of 112.6 MW, and plans to increase their number nearly threefold to reach a total capacity of 300 MW in 2010. From 2010 to 2017, the import of waste for energy production increased for almost five times.

1.2. Electricity Consumption 1.2.1. According to the data from the Electricity System Operator (ESO EAD), in the period 2018-2022, there is a slight decrease in the end ...

Bulgaria - Renewable Energy Take advantage of our market research to plan your expansion into the Bulgarian oil & gas market. This ...

Official strategic documents indicate a target of increasing wind capacity by 249 MW by 2030. The Revival of Wind Power in Bulgaria Historically hampered by regulatory and ...

This meant that the development of the sector was ceased in the period 2010-2020 and Bulgaria became last among EU member states in terms of wind energy ...

Blackridge Research's Bulgaria Wind Power Market Outlook report provides comprehensive market analysis on the historical development, the current state of wind turbine ...

Czech Republic Wind Power Market Outlook 2025&#247;2034 1 985,00 EUR - 3 890,00 EUR  
Romania Solar Photovoltaic (PV) Power Market Outlook 2025&#247;2034 1 985,00 EUR - 3 970,00 EUR  
Romania Wind ...

In Bulgaria, CWP is developing a portfolio of more than 1 GW of wind energy projects. This way we will contribute to the supply of affordable green energy, an accelerated ...
