
Bulgaria plans new energy storage industrial park

How big is Bulgaria's energy storage capacity?

A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage. Before the commissioning of the Lovech facility, Bulgaria's largest BESS was a 25 MW / 55 MWh system developed by Renalfa IPP in 2024.

Why is Bulgaria building a new power plant?

Energy Minister Zhecho Stankov hailed the installation as a milestone for Bulgaria's energy independence and regional leadership. "This facility will help maintain the most stable energy system in Southeast Europe," he said. "We are the pillar of the Balkans in balancing electricity systems."

Will Bulgaria reach 10 GWh of battery storage capacity?

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next year. A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage.

Why is energy storage growing in Bulgaria?

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

Bulgaria plans new energy storage industrial park The photovoltaic (PV) farm will be built in Stara Zagora, central Bulgaria, and will be capable of producing more than 265 GWh of electricity ...

Bulgaria will provide 228.9 million levs (\$137.8 million/117 million euro) to finance 31 projects for electricity storage facilities, which will create over 4,000 MWh in usable energy ...

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next year. A recent capacity tender has already ...

A BESS facility of 124.1 MW in operating power was inaugurated in Lovech in Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the ...

The 124-MW/496.2-MWh facility, made up of 111 containers, is located at the Balkan industrial park in Lovech, a town in central northern Bulgaria. It is the first step towards ...

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next ...

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

By storing cheap green energy and releasing it during peak demand hours, it will directly contribute to grid stability and price predictability - factors that are key to industry and ...

A BESS facility of 124.1 MW in operating power was inaugurated in Lovech in Bulgaria. Located next to a photovoltaic park ...

The country in a recent tender awarded just more than 9.7 GWh of energy storage contracts. The new BESS is located adjacent to a 106.2-MW solar energy park in the Balkan ...

The installation consists of 111 containers. The energy storage system, situated within the Balkan Industrial Park in Lovech, was built from 111 battery containers. This ...

International Power Supply (IPS) has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria - a site recognized by the ...
