
Cape Town Wind Power Container Energy Storage Project

Will Cape Town release an RFP for 100MW battery energy storage?

The City of Cape Town will, in the third quarter of this year, release an RFP for 100MW of battery energy storage systems in an effort to bolster energy security.

Why should we invest in battery energy storage in South Africa?

We applaud the South African government's commitment and dedication to the renewable energy procurement programmes. Battery energy storage will continue to play an important role in the energy transition, and we will continue to be at the forefront across our core markets," says Scatec CEO Terje Pilskog.

Who owns 153 MW & 612 MWh in South Africa?

Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in June 2025 in Cape Town. It will be located in South Africa's Northern Cape Province and occupies a five-hectare site.

Are dispatchable energy and grid infrastructure the future of South Africa?

"Dispatchable energy and grid infrastructure are now more important than ever, in the pathway to unlock the sustainability of South Africa's current and future energy system," adds Alberto Gambacorta, GM and EVP Sub-Saharan Africa, Scatec.
