What is a BESS battery energy storage system?

A BESS (Battery Energy Storage System) battery system is very necessary in nowadays. It can supply electricity for daily use during power failures. The system can also store grid energy, especially renewable energy. The cost savings from this could be passed on to customers.

What types of batteries can be used in a Bess battery?

BESSs can accommodate different batteries, including lithium-ion, lead-acid, nickel-cadmium batteries, and others--we'll elaborate on them later in the article. Every battery type has certain technical specifications that designate BESS uses and affect the efficiency of battery energy storage.
