## China-Europe solar panel greenhouse manufacturer

Where do European solar panels come from?

More than 97 percent of the solar panels in Europe are imported, mainly from China. The European Union on Wednesday announced investigations targeting two Chinese-owned solar panel manufacturers suspected of receiving subsidies as trade tensions heat up between Brussels and Beijing.

Who is the largest solar panel manufacturer in the world?

Longi is the world's biggest solar panel manufacturer. The second consortium is made up of two subsidiaries both fully owned and controlled by Chinese state-owned firm, Shanghai Electric group.

Why are European solar panels being investigated?

"The two new in-depth investigations... aim to preserve Europe's economic security and competitiveness by ensuring that companies in our single market are truly competitive and play fair," the EU's internal market commissioner Thierry Breton said. Europe heavily relies on foreign solar panels.

Who owns Shanghai Electric Group?

The second consortium is made up of two subsidiaries both fully owned and controlled by Chinese state-owned firm, Shanghai Electric group. "The (European) Commission will assess whether the economic operators concerned did benefit from an unfair advantage to win public contracts in the EU," the bloc's powerful antitrust regulator said.
