
China distribution switchgear in Argentina

Does Argentina have a subnational relationship with China?

The province of Jujuy in the north-west is often cited as a test case for Argentina's subnational relationship with China. It is home to one of China's biggest renewable energy projects in Argentina, the 315-megawatt Cauchari solar park.

Which countries trade with China in 2023?

According to 2023 data compiled by Argentina's Rosario Stock Exchange, China was the primary international trading partner of Jujuy, Chaco, Santiago del Estero, Catamarca, La Pampa and Entre Ríos. It was also the second-biggest trading partner of Santa Fe and Buenos Aires provinces.

What role do Argentine provinces play in attracting Chinese investment?

Diego Guelar, the Argentine ambassador to China from 2016-2019, believes the provinces have a fundamental role to play in making an investment attractive to China. He says they have the capacity to provide local support and insights, helping to smoothen cooperation.

Why are Buenos Aires leaders bypassing China?

While diplomatic relations between Argentina's national government and China remain ambiguous, provincial leaders have been bypassing Buenos Aires to bolster links with Beijing. These subnational efforts are mobilising investment opportunities in natural resources, energy, infrastructure and trade expansion.
