Who is gas storage CZ?

Gas Storage CZ specializes in underground gas storage solutions,operating six facilities with a total working volume of 2.7 billion cubic meters. The company's focus on improving storage quality and quantity aligns with the growing importance of energy storage in the industry.

Will a battery storage system help Czech companies achieve net zero?

The high penetration of renewable generation projects in the region could deliver a large amount of clean energy and really accelerate the journey to net zero,but at the moment Czech companies are not in a position to reap the full benefits of solar and other renewable energy sources. To do so,battery storage will be essential.

How has the energy crisis impacted the Czech Republic?

With coal dominating the energy mix,the Czech Republic has traditionally enjoyed low electricity prices and a steady supply of domestic fuel. However,the recent energy crisis,together with pressure from stakeholders and regulatory bodies to decarbonise,has triggered an unprecedented shift in the country's energy market.
