
Dhaka Off-Grid solar System

Which country has the largest off-grid solar power program in the world?

DHAKA, April 08, 2021 - Bangladesh has the largest off-grid solar power program in the world, which offers experiences and lessons for other countries to expand access to clean and affordable electricity. By harnessing solar power, the program enabled 20 million Bangladeshis to access electricity.

Does Bangladesh need a solar power plant?

Bangladesh is shifting focus to increase solar capacity through mid-size and utility-scale power plants as its fossil-fuel dominated grid expands, surpassing participation in the world's largest off-grid solar program.

Does Bangladesh have a solar home system?

Bangladesh's Solar Home Systems (SHS) program, which delivered off-grid power to households lacking access to the national electricity grid, brought significant benefits to locals, according to a 2021 World Bank report. However, SHS saw declining support as Bangladesh's grid expansion efforts gained momentum.

How did solar power impact Bangladesh?

By harnessing solar power, the program enabled 20 million Bangladeshis to access electricity. The book, "Living in the Light- The Bangladesh Solar Home System Story", launched today, documents how off-grid solar electrification was mainstreamed to a large segment of the population living in rural areas.
