
Dhaka solar System Plant

Which is the largest solar plant in Bangladesh?

Malaysian renewable energy developer Ditrolic Solar Group has energized what it claims to be the largest solar plant in Bangladesh: the 73.1 MW Mymensingh project. Located in the Mymensingh district, 100 km north of Dhaka, the solar plant secured last year a 20-year power purchase agreement (PPA) with the Bangladesh Power Development Board.

How many solar plants are there in Bangladesh?

The plant, which has supplied power to the grid since last November, is one of eight large-scale solar plants operating in Bangladesh, which have combined capacity of about 230 MW.

Where is Bangladesh's solar power plant located?

Located in the Mymensingh district, 100 km north of Dhaka, the solar plant secured last year a 20-year power purchase agreement (PPA) with the Bangladesh Power Development Board. It was built with an investment of around \$90 million and will supply power at an unspecified price to the national utility, Power Grid Company of Bangladesh.
