# Eastern Europe Mobile Power Storage Vehicle Customization

Is there a market for large-scale battery storage in Central Europe?

In many countries in Central Europe, the market for large-scale battery storage is growing rapidly. The drivers are diverse, but there are still obstacles, as Eliza Stefan, Sales Manager BESS for Central & Eastern Europe, Jinko EES, points out.

How does Poland support large-scale battery storage?

Poland is also relying on capacity market auctions, but also on tax incentives, to promote large-scale battery storage. Up to 45% of project costs of utility-scale storage are covered by grants in Hungary, in addition to a CfD scheme and modern grid connection rules.

Is Romania launching a large-scale battery storage auction in 2026?

See also: Central and Eastern Europe increasingly in the solar gigawatt class Among other things, Romania is introducing capacity auctions for large-scale battery storage from 2026 and is already relying on contracts for difference (CfD).

How much is EU state aid for Eastern Europe?

For example, the approved EU State Aid for Eastern Europe since 2022 in Hungary and Poland adds up to 1.2 trillion euros each; in Bulgaria to 0.75 bn euros, in Romania to 0.375 bn EUR, in Slovenia to 0.2 billion euros and in Lithuania to 0.2 billion euros.
