# Fiji Home Solar System Application

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Why should you choose Ves solar energy in Fiji?

VES employs the most experienced renewable energy experts in Fiji. Our team will recommend a solution to best meet your unique situation. In an effort to modernize the solar energy infrastructure in Fiji, our team has established strong partnerships with the most advanced technology manufacturers worldwide.

What is SMA Sunny Island's New solar/diesel/battery hybrid system?

February 2013 saw the commissioning of the then-largest privately owned PV/Diesel/Battery hybrid system in the region. The system utilized the newly released SMA Sunny Island Multiclustert technology with 228kWp of PV and 1.1MWh of battery storage.

What are some examples of commercial solar projects?

These include clean-burning natural gas facilities, co-generation plants, facilities, landfill gas, and investments in commercial-scale solar through interests in Sunergise and Synergise International. This website uses cookies. By continuing to use this site, you accept our use of cookies.

Solar Fiji proudly completes one of the largest off-grid residential solar installations on Viti Levu Drive in Pacific Harbor, Suva. This state-of-the-art 3.96kWp system is expertly ...

The Fiji solar home system (SHS) programme provides electricity, primarily for lighting, for remote households located in the rural areas where supplying electricity via the grid is not ...

Clay Energy was established in 1998 providing off-grid solar, wind, and micro-hydro systems for rural homes and communities in Fiji. In May 2002 Clay Energy commissioned the first off-grid ...

Solar Home Systems Fiji has abundance of sunshine and with this available resource; the Department of Energy (DOE) has been able to utilize it to its full potential.

The Department of Energy implemented the project with the equipment supplied by Japanese Company - Kyocera Corporation. The installation and ongoing maintenance of the ...

6.60kWp Hybrid Solar Installation in Viti Levu Drive, Pacific Harbor Solar Fiji has successfully engineered, designed, and installed one of the largest residential hybrid solar ...
