
Fiji installs solar air conditioner

Will Fiji install solar & battery systems?

The company has signed a memorandum of understanding (MoU) with several high-profile Fijian partners, including Musket Cove, Plantation Island, and Lomani Island Resort, to install solar and battery systems.

Do you need air conditioning in Fiji?

The heat and humidity can be oppressive, making air conditioning a must-have in homes and businesses. Air conditioning systems in Fiji typically use split systems, with an outdoor condenser and an indoor evaporator or fan coil. These systems are often installed with a ducted system that distributes cold air throughout the home or business.

How do air conditioning systems work in Fiji?

Air conditioning systems in Fiji typically use split systems, with an outdoor condenser and an indoor evaporator or fan coil. These systems are often installed with a ducted system that distributes cold air throughout the home or business. Many systems also feature a dehumidifier that helps to reduce humidity levels in the space.
