
Georgia Energy Storage Industrial Park

What is Georgia Power's 530-megawatt battery storage system?

Georgia Power breaks ground at the McGrau Ford Battery Facility in Cherokee County on April 4, 2025. This 530-megawatt battery energy storage system will consist of two phases, approved in the 2022 Integrated Resource Plan (IRP) and 2023 IRP Update. Courtesy: Georgia Power.

Where is Georgia Power's first grid-connected BESS system located?

In February 2024, Georgia Power installed its first grid-connected BESS, the Mossy Branch Energy Facility, a 65 MW system on a couple of acres of rural countryside in Talbot County, north of Columbus, GA. It was approved as part of Georgia Power's 2019 IRP.

Is Georgia Power a source of emission-free energy?

Georgia Power's fleet of hydroelectric generating units is another source of emission-free energy, with some units serving the state of Georgia for more than 100 years.

Georgia Power has unveiled the sites for its 500 MW of new battery energy storage systems (BESS), as authorized by the Georgia ...

In total, 765 megawatts (MW) worth of new BESS will be strategically located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties.

Georgia Power is implementing 500 MW of battery storage systems to enhance the reliability of Georgia's electric grid, in line with the ...

Creating new ways to produce energy in a sustainable fashion has created an abundance of business opportunities in the important area of energy storage. In fact, the future ...

Prices for battery energy storage systems are predicted to fall by many market observers, spurring greater market development. Early this ...

Prices for battery energy storage systems are predicted to fall by many market observers, spurring greater market development. Early this decade, the energy storage industry ...

Georgia Power is tendering for 500 MW of energy storage project capacity with the aim of bringing the sites online before 2032. The energy storage can be standalone or with a ...

Georgia Power has unveiled the sites for its 500 MW of new battery energy storage systems (BESS), as authorized by the Georgia Public Service Commission (PSC) ...

Georgia Power is tendering for 500 MW of energy storage project capacity with the aim of bringing the sites online before 2032. The ...

Georgia Power's Mossy Branch battery energy storage system in Talbot County, Georgia (courtesy: Georgia Power) In a continued effort to limit its use of fossil fuels to mitigate ...

Georgia Power announced today that construction is underway on 765 megawatts (MW) of new battery energy storage ...

Georgia Public Service Commission verified with Energy-Storage.news the vote to certify Georgia Power's plans to build 500MWs of BESS.
