Georgia Solar System Project Installation

Is Georgia a good state to install solar panels?
With higher than average electricity prices and abundant sunshine,Georgia"s a pretty great state for solar energy. It may not have the best local solar incentives,but as a Georgian,you can still take advantage of solar"s most valuable incentive,the Federal Tax Credit. Here"s what you should know about installing solar panels in the Peach State.

How much do solar panels cost in Georgia?
Solar panels will save you a lot of money over time,but the upfront costs aren"t cheap. The average Georgia homeowner needs a 12.35 kW solar panel system to cover their electricity needs,which comes out to $31,703 before incentives. Prices range from $26,948 to $36,458,but after the federal tax credit,that drops by 30%.

Does Georgia pay taxes on solar installation?
The cost of installing renewable energy systems in Georgia,including solar,is supported by the federal solar investment tax credit. This tax credit amounts to 30% of the value of the solar systemand is claimed on your taxes in the year following installation.
