
High quality voltage breaker in Auckland

What are nhp circuit breakers?

NHP's range of circuit breakers features a complete range of quality products for the protection of an electrical installation against overcurrent's and short circuits in industrial, commercial, and domestic applications.

What is a circuit breaker?

Explore circuit breakers, the foundation of safe power distributions and the main protection from electrically-caused fires. Protect each line carrying energy or supplying appliances by choosing the correct sized circuit breaker, that will automatically disconnect in the event of a short circuit, or a cable overload.

What types of circuit breakers are available?

Circuit breakers, thermal circuit breakers, thermal magnetic circuit breakers and other passive components from industry-leading manufacturers, in stock and ready to ship today.

What is an air circuit breaker?

Air Circuit Breakers (ACBs) serve as the primary protective devices in large switchboards or for directly powering significant equipment. They automatically disconnect the power supply in the event of faults or overloads, ideal for use in large buildings, manufacturing sites and projects with a high demand for low voltage power.
