
How much does a container generator set cost

Where can I buy a genset container?

The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry.

How much does a generator cost?

The cost of a generator varies depending on its size. A small generator can be had for \$30,000-\$40,000 new, while larger ones can retail for anywhere from \$100,000 to \$500,000 or more. A good rule of thumb in sizing the generator is 50 kW plus 10 watts per square foot.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.

What is a genset on a reefer container?

A generator set ensures that reefer containers have power when there is no regular power source available. The generator is normally mounted on the front of a reefer container; in those cases, it is a clip-on genset. The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset.
