
Huawei 4G solar container communication station inverter connected to the grid

What is the Huawei Smart Dongle?

The Huawei Smart Dongle, referred to as the "Dongle" for short, is a smart communications expansion module that works with Huawei inverters to implement wireless communication between inverters and management systems through the 4G network or WLAN/FE. Each dongle can connect to 10 devices (1 Master and 9 Slaves).

What is a Huawei hybrid inverter?

A Huawei hybrid inverter is a type of inverter that converts solar energy (DC) into grid power (AC) and also supports battery storage for storing excess energy. What do I need before starting? Which models does this step-by-step guide apply to?

How many inverters can a smart dongle support?

Via 4G connection, Smart Dongle supports up to 10 inverters to communicate with the solar management system through hassle-free plug and play. Once plugged in, the WLAN access point can be used for local deployment to realize intelligent power management and plant maintenance.

How to connect Huawei FusionSolar smart PV management system?

Install a SIM card. You need to prepare a standard SIM card (size: 25 mm x 15 mm; capacity: ≥ 64 KB). When connecting to Huawei FusionSolar Smart PV Management System, prepare a SIM card based on the traffic requirements in the following table. Before installing a SIM card, you need to remove the Dongle from an inverter.

SDongleB-06 Smart Dongle (also referred to as the Dongle) is a smart communications expansion module that works with Huawei inverters to implement wireless ...

Online B2B ordering - Huawei Smart 4G Dongle communication module for inverters - Guarantee, fast delivery, wholesale prices!

The HUAWEI Smart Dongle 4G offers a simple and robust solution to enhance the communication of your solar inverter system. With ...

The world's largest open-air offshore photovoltaic project, the HG14 million kilowatt offshore photovoltaic project of Guohua Investment Shandong Branch of China Energy Group, has ...

Smart Dongle 4G/WLAN-FE 1. Introduce Smart Dongle Smart Dongle (the "Dongle" for short) is a smart communications expansion module that works with Huawei inverters to ...

HUAWEI Smart Dongle-4G is an advanced communication device designed to enable solar inverter connection to become more advanced. With the support of stable and fast 4G wireless ...

The HUAWEI Smart Dongle 4G offers a simple and robust solution to enhance the communication of your solar inverter system. With its plug-and-play design, IP65 weather resistance, and wide ...

What is a Huawei hybrid inverter? A Huawei hybrid inverter is a type of inverter that converts solar energy (DC) into grid power (AC) and also supports battery storage for storing excess energy. ...

Connect Inverters and Data Service Via 4G connection, Smart Dongle supports up to 10 inverters to communicate with the solar management system through hassle-free plug and play. Once ...

Code scanning: Tap Connect to access the scanning screen, place the QR code or bar code of the solar inverter in the scan frame. The device will be automatically connected after the code ...

Smart Dongle 4G/WLAN-FE 1. Introduce Smart Dongle Smart Dongle (the "Dongle" for short) is a smart communications expansion ...

Huawei Smart Dongle-4G supports the communication between the inverters and your solar management system via 5G connection and hassle-free plug and play. WLAN access point ...
