# Huawei Australia Home solar Energy Storage Project

Which solar storage system should I use with a Huawei inverter?

The perfect solar storage solution to couple with any Huawei inverter, the Huawei LUNA is here. Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs.

Which battery should I use with a Huawei inverter?

Huawei batteries are the perfect choice to pair with any Huawei inverter. The Huawei LUNA battery stands out amongst its peers for its efficiency and optimal levels of production and power retention. If you are looking for a high-quality solar energy storage system, then it's just a fact that you should be considering Huawei.

Is Huawei a good energy company?

Their systems and apps are all designed to work alongside one another, making Huawei a fantastic company to go with if you are looking for a complete energy solution. As of October 2020, Solar is now officially cheaper than coal and is set to stay that way. Going forward expect most large scale energy plants that get built to be solar plants.

Why should you buy a Huawei Luna?

Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs. Rather than needing to buy additional batteries if you wish to increase your home's energy storage capacity, all you need to do is add an additional storage block to your Huawei LUNA.
