# Huawei Vietnam Inverter

Who owns Huawei solar inverter?

Huawei are reportedly owned by their employees, hmmm maybe, but definitely World No.1 solar inverter manufacturer for the past 6 years. Most people know the brand because they are World No.2 behind Samsung in smart phones. Huawei were the first to develop and release a 5G chip and had big hopes of installing the 5G networks in Australia.

How do Huawei solar inverters work?

Huawei inverters innovate and optimize solar energy throughout the entire power generation lifecycle. Huawei integrates cutting-edge digital, internet, and PV technology into their solar inverters. Embedding innovative technology intelligence into the inverters, it connects every object and process.

Why should you buy a Huawei inverter?

HUAWEI inverters are durable, premium-quality technological marvels. High-quality engineering and optimum connectivity enable solar energy plants to work efficiently for many decades. Huawei products are constantly improved and subject to rapid technological advances. In our table you will find an overview of all inverters from Huawei.

How much power does a Huawei inverter pull down?

The 5kW Huawei inverter is pulling down almost 9kW, 5kW for the house, 4kW for the battery, until the battery is full at 12.30pm. Huawei and shaded solar panels periodically rescan the MPPTs finding the maximum possible voltage, and help reduce the impact of panel shade on the string as a whole.
