
Intelligent Uninterruptible Power Supply Box

What is an uninterruptible power supply?

Equipped with ultramodern supercapacitor technology, this Uninterruptible Power Supply can operate smoothly in rugged environments ranging from -25 to 65 °C. The system consists of eight 370F / 3.0V super capacitors, which offers users no less than 3.3 times longer service life than its 2.7 V counterpart.

What is an openups power supply?

The OpenUPS is an Intelligent DC-DC Uninterruptible Power Supply that provides a regulated 6-24V power output from either a variable 6-30V input or connected batteries when the input power is disconnected (batteries not included). When input power is connected, the batteries can be charged.

What is a good power supply?

NUC-UPS - 6-48V Intelligent Automotive grade Uninterruptible Power Supply.
OpenUPS2 - 11-24V Intelligent DC-DC Uninterruptible Power Supply. DCDC-USB-200
- Intelligent buck-boost DC-DC converter with USB interface. pico-SAM9G45 -
Low cost, low power ARM embedded board. OpenUPS - Any input.

What is a good power supply for arm?

OpenUPS2 - 11-24V Intelligent DC-DC Uninterruptible Power Supply. DCDC-USB-200
- Intelligent buck-boost DC-DC converter with USB interface. pico-SAM9G45 -
Low cost, low power ARM embedded board. OpenUPS - Any input. Any output. Any Battery.

The Neosys PB-9250J-SA protects your industrial Box PC against power outages. Equipped with ultramodern supercapacitor technology, this ...

The OpenUPS is an Intelligent DC-DC Uninterruptible Power Supply that provides a regulated 6-24V power output from either a variable 6-30V ...

The OpenUPS is an Intelligent DC-DC Uninterruptible Power Supply that provides a regulated 6-24V power output from either a variable 6-30V input or connected batteries when the input ...

Mini-Box produces several high quality intelligent Uninterruptible Power Supplies. This is a tool to report status information and configure these UPS models.

OpenUPS2 - 11-24V Intelligent DC-DC Uninterruptible Power Supply The OpenUPS2 was designed to provide user specified regulated power output from a wide input voltage or battery ...

About this item 900VA/480W Intelligent LCD Battery Backup Uninterruptible Power Supply (UPS) System uses simulated sine wave ...

The Neosys PB-9250J-SA protects your industrial Box PC against power outages. Equipped

with ultramodern supercapacitor technology, this Uninterruptible Power Supply can operate ...

Abstract The invention discloses an intelligent uninterruptible power supply distribution box, which comprises a main body, a convex portion is formed on both sides of the bottom of the main ...

Open-UPS provides the following features: - Intelligent UPS, USB interface, SMBUS slave and I2C master. Communication can be done over USB and the device has also SMBUS reporting ...

Mini-Box produces several high quality intelligent Uninterruptible Power Supplies. This is a tool to report status information and configure these ...

OpenUPS2 - Compact Smart UPS with Built-in Battery Support Provides regulated power from wide input or internal LiFePO4 battery, with onboard charging and cell balancing.No external ...

About this item 600VA/340W Intelligent LCD Battery Backup Uninterruptible Power Supply (UPS) System uses simulated sine wave output to protect desktop computers, ...
