
Joint cooperation plan for manufacturing energy storage vehicles

What is MIIT's new energy storage plan?

The plan, jointly issued by eight departments including the Ministry of Industry and Information Technology (MIIT) on Monday, seeks to foster high-quality development in the new-energy storage manufacturing.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

Is cost reduction a key priority for China's energy-storage industry?

Cost reduction is one of the key priorities for China's energy-storage industry, which is essential to achieving targets, Lin Boqiang, director of the China Center for Energy Economics Research at Xiamen University, told the Global Times on Monday.

How can China improve the value chain of new-energy storage manufacturing?

To enhance support for the value chain of relevant manufacturing enterprises and foster a service-oriented manufacturing model, China seeks to drive the extensive adoption of next-generation information technologies, including blockchain, big data, artificial intelligence and 5G, within the new-energy storage manufacturing sector, the plan said.

China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to ...

The two countries are also leading joint research and development (R&D) through the U.S.-India Partnership to Advance Clean Energy-Research (PACE-R) on smart grids and ...

Joint venture to build an all-new lithium iron phosphate (LFP) battery plant at Stellantis' Zaragoza, Spain site Production is planned to start by end of 2026 and could reach ...

Jinko ESS CEO Zhou Fangkai stated: "The mass production of this joint factory marks Jinko ESS's extension from system integration to core cell manufacturing in the vertical ...

This includes initiatives such as autonomous driving in open-pit mines, smart chemical manufacturing, intelligent photovoltaics, grid-forming energy storage, data centers, ...

Speakers at the China-EU Solar & Energy Storage Industries Dialogue 2025 highlighted the growing interdependence between Chinese manufacturing scale and European ...

BEIJING, Feb. 17 -- Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the ...

Morocco's strategic location, combined with China's manufacturing ambitions, makes their partnership highly promising. 1.Two Pillars of Cooperation: What to Expect ...

Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

Learn about the EUR4.1 billion joint venture between Stellantis and CATL to build a state-of-the-art LFP battery plant in Zaragoza, Spain.

The development of new energy storage has ushered in another "reassuring needle". On the evening of November 6, the Ministry of Industry and Information Technology ...

On Dec.10th, 2024, announced by Stellantis group, Contemporary Amperex Technology Co. Limited (CATL) and Stellantis have unveiled a landmark agreement to establish a joint ...
