# Kazakhstan Almaty Home Solar Light Company

Is Almaty a good place to get solar power?

Almaty, Kazakhstan, located at latitude 43.2433 and longitude 76.8646, exhibits a strong potential for solar photovoltaic (PV) power generation due to its geographical location. The city experiences significant sunlight hours throughout the year which allows for substantial energy production from solar panels.

How much solar power does Almaty produce a day?

In terms of seasonal variations in solar power output per installed kilowatt (kW), Almaty's summer months are highly productive with an average of 7.39 kilowatt-hours (kWh) generated daily per kW of installed capacity.

Are there incentives for businesses to install solar energy in Kazakhstan?

Yes, there are incentives for businesses wanting to install solar energy in Kazakhstan. The government of Kazakhstan has implemented a number of policies and programs to promote the use of renewable energy sources, including solar energy. These include tax exemptions, grants, and subsidies for businesses that install solar systems.

What is the optimal tilt angle for fixed panel installations in Almaty?

The optimal tilt angle for fixed panel installations in Almaty is towards the south at a degree angle of approximately 37 degrees; this orientation maximizes exposure to sunlight and thus enhances overall energy generation.
