## Kuwait container generator manufacturer

How many power generators are there in Kuwait?

With a fleet of around 350 Power Generators; one of the largest in Kuwait, our product line offers a wide range of power; ranging from 13 kVA to 1500 kVA as well as associated fuel tanks up to 30,000 litres capacity. These include open and enclosed generators which offer outstanding value, guaranteeing maximum efficiency and productivity.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What types of generator services are available?

These include open and enclosed generators which offer outstanding value, guaranteeing maximum efficiency and productivity. Ensuring we meet our customer service expectations. We provide a full spectrum of Generator Services that are required in the Oil & Gas field services.

What is a dual pack generator?

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW. This dual configuration increases the longevity of the overall unit by preventing the effects of light loading.
