# Lithuania Urban Energy Storage Cabinet Container

What is Lithuania's electricity storage project?

The electricity storage project will guarantee security and stability of energy supply in Lithuania. It will also enable Lithuania to disconnect from the Russian controlled electricity grid and synchronize with the continental European electricity grid.

Will EU grant a battery storage project in Lithuania?

European Commission delegation visiting a Fluence battery storage project in Lithuania.

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide EUR180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU.

Why should Lithuania invest in batteries?

It will also enable Lithuania to disconnect from the Russian controlled electricity grid and synchronize with the continental European electricity grid. In case of accidents, batteries will provide instantaneous electricity reserve service in less than one second. In the future, batteries will help to integrate renewable energy sources.

What is Lithuania known for?

Lithuania is notable for being the site of one of the world's first major storage-as-transmission projects, with four 50MW/50MWh systems deployed by system integrator Fluence for transmission system operator (TSO) Litgrid, one of which is pictured at the top of this article.

Lithuania's Ministries of Energy and the Environment have jointly approved an additional EUR37 million in funding to expand the country's capital expenditure (capex) support for ...

The Lithuanian Ministry of Energy and Environment has approved additional funding for its energy storage procurement program ...

The Lithuanian Ministry of Energy and Environment has approved additional funding for its energy storage procurement program after strong interest from potential ...

The electricity storage project will guarantee security and stability of energy supply in Lithuania. It will also enable Lithuania to disconnect from the Russian controlled electricity grid and ...
