Why is Lithuania launching a major energy storage procurement exercise?

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement exercise. Lithuania has announced a EUR 102 million (\$ 105 million) energy storage tender in a bid to procure balancing services to the transmission system operator and ensure the resilience of its grid.

Will Lithuania install 800 MWh of energy storage facilities?

In the procurement exercise, Lithuania is seeking to install at least 800 MWh of energy storage facilities, which will be directly connected to the transmission network by the end of 2028.

As it cut ties with Russia's fossil fuel-dominated power grid, Lithuania took another step towards 100% renewable electricity by launching a large-scale battery storage tender. ...

The Baltic country aimed to procure at least 800 MWh of energy storage but ultimately approved support for five times that capacity.

Who's Reading This and Why Should You Care? If you're a Lithuanian homeowner eyeing solar panels, a factory manager trying to cut energy bills, or just someone who Googled ...

As it cut ties with Russia's fossil fuel-dominated power grid, Lithuania took another step towards 100% renewable electricity by ...

Lithuania's energy storage market has gained momentum following the Baltic states' complete disconnection from the Russian ...

Private developers are also entering the Lithuanian storage market. In September 2025, Finnish company Olana Energy acquired a 70 MW / 140 MWh project in ?al?ininkai from ...

Lithuania Residential Energy Storage Industry Life Cycle Historical Data and Forecast of Lithuania Residential Energy Storage Market Revenues & Volume By Technology for the Period 2020-2030

---

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement ...

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement exercise.

As Lithuania expands its green energy portfolio with projects like Lithuania's Largest Solar Park Opens, battery storage becomes critical for balancing the grid, storing ...

Energy accumulation and storage development process has already started in Lithuania. However, energy storage projects (both ...
