## Lome anti-dumping on energy storage

Are anti-dumping duties on active anode materials threatening battery installations?

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on active anode materials. The supply chain for Active Anode Materials (AAM) is dominated by Chinese producers, with attempts to establish the full supply chain outside of China years away. From ESS News

Are anti-dumping duties threatening battery installations in the US?

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on anode materials. The supply chain for Active Anode Materials (AAM) is dominated by Chinese producers, with attempts to establish the full supply chain outside of China remains years away.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.

Which international trade issues will remain a concern for energy storage projects?

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on anode materials. The ...

US Anti-Dumping Tariffs on BESS Components By Lucian Gavriluc, PE Executive Director, Energy Storage Published July 2025, E3 Consulting Services, LLC preliminary anti ...

The CNESA report estimated that China's cumulative installed capacity of new energy storage in 2027 may reach 138.4 gigawatts if the country's provincial-level regions achieve their targets ...

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and ...

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on anode materials. The supply chain for Active Anode Materials (AAM) ...

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity. While it remains to be ...

Why Lomé's Energy Storage Policy Matters for West Africa Lomé, the capital of Togo, has launched a groundbreaking energy storage development policy aimed at boosting
