
London solar container battery Project

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG(ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK,marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE)

How many MW of solar & battery storage are there in the UK?

Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage. German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

How many solar projects are there in the UK?

In the UK,RWE has 11 solar projectsunder construction and recently brought online its first UK solar site,Langford. Combined,these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage.

Why did RWE get a solar & battery consent?

"This latest successful consent further strengthens RWE's solar and battery storage development pipeline in the UK,supporting the UK's energy security ambitions," Adam Swarbrick,RWE UK Head of Solar and Storage,commented and added that the next step for the company is to work towards a successful internal investment decision.
