## Main circuit breaker factory in Costa-Rica

Why is Costa Rica a good country for electronics manufacturing?

Since Costa Rica hosts the region's only Intel semiconductor assembly and test plant, electronics manufacturers in Costa Rica may enjoy a significant economic advantage. Finally, Costa Rica is geographically located between North and South America, and has ports on the Atlantic and Pacific oceans.

What is Costa Rica famous for?

Costa Rica is the fifth largest Central American country with a population of almost five million. Traditionally, the country's major exports have been agriculture goods, such as coffee, sugar cane, pineapples and bananas; however, since the 1990s, manufacturing has made major in-roads into their economy.

What is Smiths Interconnect Costa Rica known for?

The Smiths Interconnect Costa Rica plant is known for producing a wide range of electronic components and is working towards the implementation of a semiconductor manufacturing and assembly capability. Current products include the following. Figure 3. Smiths Interconnect operator verifying the results of a screen print.

What makes Costa Rica a great country?

Several factors have led to Costa Rica's growing manufacturing sector. These include a highly educated and trained workforce, with one of the highest literacy rates in the Americas. This is enabled by the country's commitment to primary and secondary education, and the establishment of numerous public and private universities.
