
Mobile solar lighting in Central Asia

How big is the ASEAN solar lighting market?

The ASEAN solar lighting market size is expected to grow at a CAGR of 7.20% between 2023 and 2028. The major drivers of the market include introduction of incentives by various governments to promote the utilisation of solar operated electrical devices and the increasing demand for energy efficient lighting.

Where to buy solar street lights in China?

For instance, you can choose LEADSUN, which has produced the best quality and durable street lights for 13 years now. Also, SOKOYO can be another option as it is China's biggest solar lights manufacturer company and supplies its products to over 70 countries. However, if you want a company with a high-tech enterprise certificate, go for SreSky.

What are the key trends affecting the ASEAN solar lighting market?

Another crucial trend aiding the growth of the ASEAN solar lighting market is the low cost of solar lighting systems. The cost-efficient nature of solar lighting is expected to increase their utilisation over the forecast period. The zero costs of drop meters and grid power have made the adoption of solar lighting cost effective and preferable.

Where is Kingsun solar lights made?

Besides, it is headquartered in Jiangsu and has a 66,700 sqm factory. The customization facility of Kingsun is praiseworthy. They have a tailor design team that assists you in designing your desired solar lights. You can consult them to get your project's conduct and lighting cost.
