# Outdoor solar Lighting System

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, offering beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to help improve home safety and security, light up patios and walking paths, or create a cozy glow around your lawn, garden, or pool.

What are some home uses for outdoor solar lighting?

Popular home uses for outdoor solar lighting include pathway light sets, wall-mounted lamps, freestanding lamp posts, and security lights. Outdoor solar lighting systems use solar cells, which convert sunlight into electricity. The electricity is stored in batteries for use at night.

What is outdoor solar store?

Get access to exclusive deals, product releases, and solar lighting tips delivered right to your inbox. Outdoor Solar Store offers some of the best professional quality solar powered lighting options for your home or business, including landscaping lights, security motion sensors, flagpole lighting & more.

Are outdoor solar lights easy to install?

In general, outdoor solar lights are designed with ease of installation in mind. They're ideal for consumers who want simple lighting solutions that don't require outdoor wiring. Lighting type and intended location will ultimately determine the installation process.
