# Philippine Cebu Energy Storage Machinery Equipment Supply Station

What's new at MGen Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. President Ferdinand R. Marcos Jr. was present during the groundbreaking of the Terra Solar Project, the largest integrated solar and battery storage facility in the world to date. (PNA)

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

When will MERALCO PowerGen's battery energy storage system be completed?

(PNA) MANILA - Completion of the first phase of Meralco PowerGen Corporation's (MGEN) Battery Energy Storage System (BESS) in Toledo, Cebu is targeted by 2026, with full completion eyed the following year. The first phase has a 25 MW capacity while full capacity is 49 MW.

Can EAUC provide ancillary reserves to the Luzon & Visayas Grid?

"EAUC has consistently proven its ability to provide crucial ancillary reserves to the Luzon and Visayas grid when needed. The integration of BESS with our existing facility will materially enhance this capability, enabling faster and more efficient responses," he added.

Why Cebu Needs Energy Storage Solutions Now Cebu, the Philippines' fastest-growing economic hub, faces rising energy demand due to urbanization and industrial expansion. The island's ...

Aboitiz Power Corp. will build a 30-megawatt (MW) hybrid battery energy storage system (BESS) project in the Mactan Economic ...

Aboitiz Power Corp. will build a 30-megawatt (MW) hybrid battery energy storage system (BESS) project in the Mactan Economic Zone in Cebu, as part of efforts to enhance ...
