The EF ECOFLOW Portable Power Station DELTA 2 Max is an excellent choice for anyone seeking reliable home backup power without the noise and hassle of traditional gas generators.

How do I choose a backup power station?

Below are the key factors that will help you decide which model fits your backup power goals best: Battery capacity, measured in watt-hours (Wh), tells you how much energy the power station can store. A higher Wh means longer runtimes for your appliances. For basic needs like lighting, routers, or phone charging, 500-1000Wh is usually enough.

Why is expandable storage important for a home battery backup system?

When evaluating home battery backup systems, expandable storage capability plays a significant role in meeting your energy needs. This feature allows you to increase your system's capacity based on your requirements, starting from a base level and adding batteries or modules as needed.
