
Price quote for a 50kW photovoltaic container for use in Australian mines

What is a 50kw solar package?

Our 50KW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in an efficient configuration and a solid 50KW solar inverter. We pride ourselves in our strong reputation as the leading provider of commercial solar in Australia.

How much does a commercial solar system cost in Australia?

Solar Choice has been tracking the cost of commercial solar systems in Australia since 2014, publishing average figures each month in our Commercial Solar Price Index. Based on this data we can see the average cost of a 50kW system as of August 2024 is \$50,480 including the STC rebate and GST.

How long does a 50kw Solar System last in Australia?

Most 50kW solar systems in Australia have an average payback period of 4 years. However, depending on your location and energy consumption patterns, the system may pay back in as short as 3 years, or extend to around 5 years. The more energy you consume from your 50kW solar system, the faster it will pay itself back.

How much does a 50 kW solar system cost in Australia?

Across Australia the most recent Commercial Solar Price Index (May 2025) shows turnkey 50 kW installations ranging AU \$46,400 - AU \$57,170 depending on city, with a national mean of AU \$51,420 (? \$0.95 /W). Sydney records the lowest current outlay (AU \$46,400) while Perth is highest (AU \$57,170).
