## Prices of solar panels in Tbilisi

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs \$2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about \$13,173 before incentives, though prices range from \$11,197 to \$15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

Does Georgia have a solar tax credit?

As long as your federal tax bill is high enough, you can take advantage of the federal tax credit in Georgia. This incentive allows you to apply 30% of your solar installation and equipment costs toward your federal tax bill. If the amount exceeds your tax bill, you can roll over the remaining credit to the following year.
