# Purchase Solar Power System

How much does a solar system cost in China?

Component Checklist: Solar systems in China offer exceptional value at 40-60% lower costs than Western markets. Quality systems start at \$15,000 (\$2,100) with 6-8 year payback periods. This article will take you through solar system price in China: how much does it really cost, but the quality varies greatly by supplier and system type.

Why should you buy a solar system?

Flexible financing and low monthly lease options can help you secure the best price for your solar system. By installing solar panels, you can also reduce your reliance on traditional energy sources. Power your home with emissions-free, renewable energy directly from the sun.

Can you buy solar panels yourself?

While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer. Design a custom solar system and compare quotes online. The best way to buy solar panels is buying a house that already has solar panels installed.

How much does a 5kw Solar System cost in China?

Prices have dropped significantly, but quality varies widely across suppliers and system types. A complete 5kW solar system in China costs \$15,000-\$30,000 (\$2,100-\$4,200), with Tier-1 panels from Longi or Jinko at \$0.9-\$1.3 (\$0.13-\$0.18) per watt. Installation adds 10-20% to the total price.
