
Quotation for a 150ft Folding Container

What is the freightify container shipping calculator?

The Freightify container shipping calculator is a shipping tool that collects the details of the container, including origin, destination, and other information. The calculator then leverages a collection of data points across multiple sources to consider all relevant factors and new policies that could impact the container shipping rate.

Why should you use iContainers' ocean freight calculator?

For businesses or individuals looking to ship small parcels or documents by air. In a world where shippers want everything quick and fast, a turnaround time of two days for shipping rates no longer cuts it. iContainers' ocean freight calculator eliminates that problem by providing instant shipping quotes.

How much does shipping a 20ft container cost?

Shipping a 20ft container ranges from \$2,800 to \$15,600, and a 40ft container from \$1,865 to \$23,415, depending on the route. Partial container shipping (LCL) is a cost-effective option for smaller moves, averaging around \$1,600. Main cost factors include distance, volume, delivery method, and optional services like insurance, customs, or packing.
