## Russian Energy Storage Container 20ft Supplier

Does sea container LLC sell new or used containers?

Sea container LLC is able to supply new or used containers for sale nationwide. Our clean, dry, secure equipment is perfect for storage, or shipping. Regardless of your container purchase requirement, rest assured that your stored items will remain dry and secure. Our most popular container sizes are 20ft and 40ft.

How much power does a 20ft container have?

The 20ft container features a 614 kWh 250kW power storage system, which can be built almost anywhere due to the prefabricated design, therefore, much time and money involved in the process will be saved. The control system of voltage and frequency regulation can help meet the emergency demand for power supply.

What are the most popular container sizes?

Our most popular container sizes are 20ft and 40ft. We keep a vast amount of stock in various depots in St. Petersburg, Moscow and other big cities of Russia meaning that we can source and deliver your container quickly and economically. Our new and used containers: Do I Need a New or Used Container?

What is a used container?

Used containers are always weather proof and structurally sound. They can be upgraded in order to be suitable for shipping if required. They usually have marine ply flooring as standard with four vents for air circulation. Our most popular container sizes are 20ft and 40ft.
