## San Diego walk-in energy storage container manufacturer

What is the Seguro energy storage project?

By delivering stored power when it is most needed, the Seguro storage project provides flexibility that will be critical to helping the San Diego region meet its decarbonization goals and California achieve 100% carbon-free energy by 2045. AES' Seguro energy storage project is a planned facility in California.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);

Did San Diego County conduct a public scoping meeting for Seguro energy storage?

San Diego County conducted a public scoping meeting for the Seguro Energy Storage project. Read more here. It's important to remember that fires and thermal runaway incidents at battery storage facilities are rare occurrences.
