
Serbia Solar Tiles

What are solar roof tiles?

Solar roof tiles (or photovoltaic roof tiles) are a way to seamlessly integrate solar technology into your home without compromising the natural design of your home. It works on the same principle as traditional solar panels. Therefore, solar roof tiles combine the functionality and aesthetics of BIPV, allowing for uniformity of design!

What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

How many jobs will a solar project create in Serbia?

Djedovic Handanovic said that the project would create between 300 and 500 jobs. According to the Association of Renewable Energy Sources of Serbia, the country has installed around 60 MW of solar. However, that figure is not exact, as there is no official registry for solar installed for self-consumption at this stage.
