
Serbia's wind and solar complementary bidding for telesolar container communication stations

How many MW of new solar & wind power is available in Serbia?

The Ministry of Mining and Energy in Serbia has allocated a combined 645 MW of new solar and wind power capacity in its 2nd renewable energy auction round for market premiums through a contracts for difference (CfD) scheme. This round was oversubscribed with the offered quota of 424.8 MW capacity significantly exceeded.

What is the quota of wind power in Serbia?

At the first auctions, the wind quota was 400 MW while the one for photovoltaic projects amounted to 50 MW. There are seven applications in the wind power segment and 33 for solar power. At the first auctions there were nine and seven, respectively. Serbia changed both the price ceiling and the criterion for evaluating the bids.

Is Serbia ready to scale up wind & solar energy?

"Following the success of last year's auction, this second step towards fulfilling the 1,300 MW three-year plan announced by Serbia is an important signal to investors and all market participants about the country's commitment to scaling up wind and solar energy," said Matteo Colangeli, the EBRD's regional director for the Western Balkans.

How much does a wind farm cost in Serbia?

The auction attracted seven applications for wind farm projects and 34 solar projects. The winning bids offered prices as low as EUR 50.9 (USD 53.28) per MWh for solar and EUR 53.5/MWh for wind, which are below current market levels and below those achieved in Serbia's first renewable energy auction in August 2023.

Serbia's second renewable energy auction for wind and solar power, announced in late 2024, successfully allocated all available capacity, with applications closing in early 2025. ...

Serbia announced its second renewable energy tender for 424.8 MW of wind and solar projects, supported by a contracts-for ...

Serbia on Wednesday announced the start of its second auction under the contract for difference (CfD) mechanism, seeking to allocate 424.8 MW of new wind and solar ...

Serbia announced its second renewable energy tender for 424.8 MW of wind and solar projects, supported by a contracts-for-difference (CfD) program for 15 years. The auction ...

Investors submitted 41 project proposals. The total capacity of the wind and solar projects receiving support will be up to 645 MW. This second auction follows the successful ...

Backed by EBRD and SECO, Serbia's second renewables auction allocated 645 MW of wind and solar capacity, with competitive prices starting at EUR 50.9 per MWh for solar.

Serbia has closed its second round of auctions for renewable energy, selecting 424.8 MW of solar and wind power projects for contracts for difference (CfDs), the Serbian ...

Investors submitted 41 project proposals The total capacity of the wind and solar projects receiving support will be up to 645 MW This ...

At the first auctions, the wind quota was 400 MW while the one for photovoltaic projects amounted to 50 MW. There are seven applications in the wind power segment and 33 ...

The Ministry of Mining and Energy in Serbia has allocated a combined 645 MW of new solar and wind power capacity in its 2nd renewable energy auction round for market ...

The Serbian Ministry of Energy and Mining has awarded tenders for ten solar and wind projects with a total capacity of 645MW.

In the second round of auctions for renewable energy market premiums, launched by the Ministry of Mining and Energy in November 2024, investors submitted applications for ...
