## Solar Street Light 60W Barcelona Spain

How many points of light does Barcelona have?

Barcelona has more than 146,000 points of light, including street and artistic lighting; an unbalanced distribution which is the fruit of urban renovations and isolated maintenance, leading to a wide variety of criteria, models and results.

How much electricity does Barcelona use?

Public lighting has 17,600 kW of installed electrical power and annual electrical consumption is around 82,000 MWh/year, or 54 kWh/year per inhabitant. This is 20% of the total energy consumed by Barcelona City Council. Over 50% of the power is currently remote-controlled and the lighting levels in the city are around 20-30 lux.

What are solar traffic lights?
